To test my project, please import my file to the Eclipse and build the path for the project.

The jars are in the src -> api -> poi-bin files. Please Build path for everything jar except for the "auxiliary" file.

The demonstration video is in this link: https://drive.google.com/drive/folders/1-0EPQII14PZsTFDJl9x3VBL-P06ovZQq?usp=sharing

Thank you.
